About pickAtime

pickAtime is a web-based application to schedule conferences with teachers during the November and February parent/teacher conferences. By using pickAtime, you can schedule appointments that meet your busy schedule, print your scheduled appointments, and even receive an email reminder. In order to use pickAtime, you will need to know your student's ID number. This can be found on a student schedule, a progress report, or a report card. Some schools may also distribute the student ID number on a label.

Create a Parent Account

In order to schedule parent/teacher conferences in pickAtime, you will need to create a user account every school year.

1. Go to Howard County Public School's main website, www.hcpss.org and click on the link for pickAtime. Select the school for which you need to create an account. If you have students in different schools, you will need to go to each school's link to schedule conferences. However, you will use the same pickAtime account for all school sites.

 **TIMESAVER:** You may want to bookmark your school's pickAtime link as a favorite for future use.

 **WARNING:** Do not go to pickAtime's main website to create your appointments.

2. Create an account by entering your email address and a password. If you do not have an email address, you can make one up using @noemail.com, e.g., sjones@noemail.com.

 **NOTE:** Remember your pickAtime user account for February conferences.

3. Click the **Login/Create Account** button.
4. Fill out the required fields. The First and Last name fields should be your name, not your student's name.
5. Click the **OK** button.
6. Enter your student's nine digit Student ID# (include the leading zeros) and birthday (mm/dd/yyyy format) in the **Student ID** and **Student's birthday** fields.
7. Click the **Add** button.

 **NOTE:** You can add additional children attending this school once you have selected a conference date.

Create Appointments

You can begin scheduling appointments once you have created an account. Each school determines the start and end dates and times for appointment taking in pickATime. Please check with your school regarding these dates.

1. Log in to your school's pickATime site if you are not currently logged in.
2. Click the link for the day you would like to schedule your appointments. A **Legend** will appear with your student's teachers.

 **NOTE:** You can select a different day by clicking a different date link.

3. If you have additional students attending this same school, enter their Student ID and birthday and click the **Add** button.
4. Click the colored square for the teacher whom you would like to schedule an appointment.
5. Deselect the checkbox if you do not want an email reminder or you can change the timeframe of the reminder.
6. Click the **Create Appointment** button. A black square indicates your scheduled appointment. A white square indicates the time is unavailable.
7. Continue until all appointments have been scheduled.
